# PRICE LIST OF PECAN TREES

**B. W. STONE, Nurseryman**

**Thomasville, Georgia.**

Dear Sir:—

We go out determined to produce a pecan tree with the greatest stamina possible. We have succeeded and our customers so testify.

With over 20 years experience in growing pecan trees we know how to grow a pecan tree with the greatest degree of thrift and vitality. A better combination of sand and clay for producing a fine root system we have not seen.

We know what we send out and invite competition with our trees anywhere. They will stand the test.

We have a large lot of exceptionally fine trees and we want you to see them and do business with us. Take a day off and make us a visit. We appreciate your interest and offer you our services.

Please write us further. We will be glad to serve you.

Very respectfully yours,

B. W. STONE.

## PRICE LIST

	EACH	10	100	1000
1 to 2 feet - -	50	\$ 4.00	\$ 30.00	\$ 200.00

**Varieties---Stuart, Delmas, Frotscher, Schley, Mobile, Vandeman, Pabst, Success and Teche.**

Mr. B. W. Stone, Thomasville, Ga.

Dallas, Texas.

My Dear Sir:—I am having excellent results with Texas varieties, budding from selected seed, nuts and selected buds. I prepared a paper for the National Nut Growers Association at Mobile, giving some experiences on this line. It will interest you. I wish we lived closer together. I would get you to grow some hundreds of trees for me to supply people here. The root system given by your soil is the finest I have seen, and you do send out lovely trees.

Yours truly,

CHAS. L. EDWARDS.

Tifton, Ga.

Dear Sir:—The 500 pecan trees which we got of you are sending out shoots all along the trunk from the ground to the top. Only four failed to live.

Very truly,

E. O. HOOD.

Valdosta, Ga., May 11, 1913

Dear Mr. Stone:—The trees that you have furnished to us from time to time have been all that we could ask of them and we believe superior to any that we could secure from any other nursery anywhere. In fact we would not have been in the business today were it not possible for us to have secured trees from you to plant our 1400 acres in pecans.

Very truly yours,

VALDOSTA PECAN PLANTATION CO.

J. T. Blalock, Secretary.

Columbus, Ga., June 13, 1913.

Dear Sir:—In 1912 I bought from you 6,000 trees and in 1913, 4,000 and I am very glad to say that these trees were very fine and gave me excellent satisfaction. I expect to buy some more trees next year and you can certainly count on my business.

Yours very truly,

R. B. SMALL.

Chicago, May 12, 1913.

My Dear Mr. Stone:—It gives me pleasure to state that about the best trees we have purchased for our orchard have been from B. W. Stone & Co., Thomasville, Ga. We have purchased approximately 10,000 trees from this Company, and they were first class in every particular, and are about the best trees in our orchard.

The trees were furnished to us in good condition, being properly packed and shipped. Your dealings with us have always been correct, fair and honest.

I will further say when I visited your nursery last fall, I was very much impressed with the careful cultivation your nursery was being given, in fact I can truthfully say it is one of the high class nurseries of the south. The trees were healthy and thrifty and you could see that they were given expert attention and most careful cultivation. I expect to be in Thomasville, Ga., in the near future, and I want then to make arrangements with you for a purchase of more trees for our next season's planting. With kind regards, I beg to remain,

Yours truly,

DIXIE PECAN ORCHARDS COMPANY.

By Dan B. Jesse, President.

(OVER)

**Cotton for Trees---** I will accept cotton at full value for trees. Write for particulars.

B. W. STONE, Thomasville, Ga.

B. W. Stone, Thomasville, Ga.

Boston, Mass., May 15, 1913.

Dear Mr. Stone:—I have 2500 trees well planted in dynamited holes, which is all we can give the best care to at present. In reference to those we bought of you December, 1911, would say that excepting a vary small per cent., all of them lived and are today making an unusually vigorous growth. As to their being true to name, that is why I traded on your long experience and reputation for honesty, which of all things is worth paying for in buying trees, and I feel well insured against disappointment.

Very truly,

EDWD. C. HOOD.

B. W. Stone & Co., Thomasville, Ga.

Catherine, Ala., Feb. 11, 1914.

Dear Sirs:—I received those pecan trees and I must say they are the finest I ever saw. I have been planting a few every year for twelve years. Usually they have one long tap-root and a few scragly little roots, but these had from 25 to 50 good roots. If they do not live it will not be the fault of the trees. I find I need just three more to finish out that patch, so I want you to send me three more nice Stuarts 7 to 8 feet.

Yours truly,

KING PHARR.

Fannie, Ala., Dec. 14, 1911.

Gentlemen:—I want to get some nursery stock and a few pecan trees, so please send your latest price list. I have a good many of your trees and they are fine, also true to name; your stock is O. K., and must place my order with you, so do not say you are sold out. Hoping to hear from you at an early date, I am respectfully yours,

H. L. BLOUNT.

Long Beach, Miss., March 12.

Dear Sirs:—The pecan trees have been received, and I wish to say that no one could be more fair than you are, and whenever I need anything in your line you will get the business. I have recommended your firm to two others and will to any others that I learn of. Thanking you for generous treatment,

Very truly,

E. W. TRAUTMAN.

Mr. B. W. Stone, Thomasville, Ga.

Vicksburg, Miss., May 20, 1913.

Dear Sir:—Nearly all the pecan trees I bought of you have put out nicely. Will need a few more next fall (about 30 Success.) Purchased pecan trees from 3 nurseries and yours were the cheapest, strongest looking and best packed. Will plant more pecan trees as soon as I'm able to clear the land.

CHAS. E. DOWNING.

Mr. B. W. Stone

Ebony, Texas, Jan. 22, 1914.

Dear Sir:—I received the \$30.00 worth of trees I ordered from you several days ago. They arrived in fine shape and were as fine a lot of trees as I ever saw.

J. R. WILMETH, JR.

Mr. B. W. Stone:

Dear Mr. Stone:—The pecan trees bought of you and transplanted in January, 1907, have more than met expectations. They were fine, well-grown trees with splendid root systems when received, and with the care and cultivation given, have made good. Most of them began to bear in three years from transplanting and are all bearing now. Some of them have proved to be of an especially good strain of named varieties. A considerable number of native trees in the neighborhood have been budded from them. These are also bearing and the owners are proud of them. Age considered, they are the largest and most fruitful pecan trees I know of and the amount paid for them multiplied by one hundred would not take them from my grounds. And those Thomas Muscadines! For fruitfulness, fine flavor, vigor, hardiness and splendid appearance of the vines, they are all that one could ask for in a grape of the Scuppernong family.

Dallas, Texas, June 3, 1913.

CHAS. L. EDWARDS.

Mobile, Ala., March 30, 1914.

Dear Sir:—Every tree you shipped us was satisfactory with us. Only regret is we did not know you early in the season. As the prices we bought same sized trees cheaper from other nurseries, but so far as quality is concerned, your trees gave us more satisfaction than any other nursery's. Hope we will do much better business next year.

ALVIN JAPANESE NURSERY CO.

Miflin, Ala., Aug. 28, 1914.

Yours of recent date to hand inquiring about trees ordered from you last winter. I am pleased to be able to report that notwithstanding the fact that this section this year experienced the most severe drought it has known for many years, the trees we got from you all lived, and with the exception of one or two, have made considerable growth. There have been hundreds of trees lost in this locality this year and we are certainly pleased that our trees have done so well.

J. A. PILGRIM.

Ozark, Ala., Jan. 23, 1913.

Dear Mr. Stone:—Replying to your inquiry of the results of my having transplanted the B. W. Stone trees. I have had satisfactory results. I have several vigorous young trees I bought of you the last of Feb., 1910. One of these bore a few nuts in 1912, and again in 1913. I expect several more of them to bear nuts this coming season. With best wishes for you and yours along all lines, I am,

Respectfully,

D. G. MUNN, Cashier.

Thomasville, Ga. Oct. 12, 1914.

Mr. C. A. Reed,  
Washington, D. C., U. S. Dept. Agl.  
Dear Sir:

Please allow me to call your attention to the fact that I have for this season, an exceptionally fine lot of pecan trees to offer you for planting.

My long suit is superior root system, produced by it is soil especially.

One customer, planting eighty trees last year, very dry year, only lost one tree.

See my rock bottom prices, and give me your order for your wants.

Yours truly,

3WS/

*Beaumont*
